1. Purpose

This policy provides an outline of the types of private roads that exist within the Litchfield municipality, and how Council services these assets.

2. Scope

This policy applies to all roads and tracks (but not including single property driveways) which are not under the legal care, control and management of the Council or the Territory (Private Roads).

3. Definitions

For the purposes of this Policy, the following definitions apply:

Battle-axe access	A portion of a property that provides access to a property that runs alongside an adjacent property at a width of at least 6m (typically 10m) to provide single property connection to a public road. The access is part of the entire property and is not typically shared with other properties.
Driveway Crossover	The vehicular accessway from the road carriageway to the property boundary.
Formed Road	A road that has been formed but not constructed with a pavement. Access may be limited at periods of wet weather.
Private Road	A portion of land formed and functioning as a road which is used to access multiple properties. The land that the road exists is a portion of the adjacent properties, typically with a 3-5m wide strip that is a part of each individual property. The road may or may not be recorded or registered and gazetted and may be a track, formed, unsealed or sealed.
Right of Way	A portion of land formed and functioning as a road that has a dedicated right of way on a property title. The road does not have a formal road reserve, but is vested as being a right of way to either Council, Northern Territory Government, or specific private owners.

Road	A road that has been registered and published in a Northern Territory Gazette Notice as a road.
Sealed Road	A road that has been sealed with a bituminous surface
Track	An unformed track within road reserve land that is largely used for recreational or emergency access. Access is likely to be limited at periods of wet weather.
Unsealed Road	A road that has been formed and pavement constructed, with a gravel surface.
